Best TV Strategy

If you've delivered a particularly brilliant TV plan that you're proud of and that achieved great results for your client, then this may be the category for you. Evidence shows that putting TV at the heart of your plan produces positive results. We're looking for excellence in planning on linear TV and/or addressable and/or BVOD. Perhaps you've demonstrated exceptional use of insight; or innovated in a way that others can learn from. Your campaign might be integrated brilliantly with other media or may be an outstanding solus linear TV or BVOD campaign; whatever it is, it needs to be good enough to inspire envy from your fellow planners.

No

This is the Executive Summary of your document.

This is your opportunity to highlight the most important parts of the campaign and to give a concise and compelling overview of the challenges, objectives, strategy, planning and results that the entry is built around. If the judges only saw one page, this should be it.

Clearly state the business, marketing and communications objectives that lay behind the communication investment.

What was the competitive position of the brand and its recent marketing history?

What were you trying to achieve and why?

Hard business objectives here are ideal.

Do make sure your objectives are clear and relevant; it is crucial to match your final results to these objectives.

Supporting Document #2 (optional)

Here we want to see clearly how the strategic solution was implemented.

Some ideas:

- What were the main "stand-outs" of your plan?
 - Outline the implementation fully.
 - Describe how the use of AV was integrated with other marketing activity, whether media advertising or not.
 - Make sure you include enough detail about the TV plan. For example, seasonality, flighting, weights, frequency distribution, channel and programme choices can all add depth to a broader outline.
 - Describe how the use of TV was integrated into the overall AV plan and with other marketing activity, whether media advertising or not. Be as clear as you can about what you did; if some facts are confidential maybe indexing them or describing them in relative and not absolute terms will help

Supporting Document (The Plan) #2 (optional)

The business, marketing and communication objectives that you wrote about in the background and objectives part of this document...did you achieve them?

It is critical that you include evidence that your plans worked against the objectives you set. Include measures such as shifts in awareness, attitudes, consideration and most importantly commercial results such as shifts in revenue, profit, sales, market share.

Some ideas:

- What happened as a result of the communication activity? How do you know it worked?
- What was the budget?
- Can you isolate the effect of advertising from the brand's other marketing investment e.g. price-cutting, wider distribution, etc?
- Was it possible to isolate the specific impact made by TV?
- Consider the market your brand was operating within and also what competitive activity existed at the time.
- Make sure you avoid overclaim and have considered what other causes might account for the effect you saw.
- Can you prove that the communications activity has been a worthwhile investment for your client? To what extent has it paid back?
